### Scan information for 200.35.146.83

Host: 200.35.146.83  
 Port: 5060  
 User-Agent: VOIPSCANNER  
 Testerix 0.3  
 Location: Panama  
 Date: 17/07/09

### Weak Passwords (5/6)

During the scan we were able to guess some passwords. It is recommend that a stronger password is chosen for these extensions. Some extensions allow anonymous access. It is highly recommended that you disable these extensions!

Extension	Password
100	[no password]
101	101
103	2323
104	9999
777	[no password]

### Extension Enumeration

The following is a list of extensions that were identified during the scan. By itself, this may not be a security issue but it is good to be aware that extensions can be identified on the IP PBX.

#### Extensions

- 100
- 101
- 102
- 103
- 104
- 777
